Favorite Color: Purple

Favorite Food: Orange Juice!!

Favorite Show: Phineas & Ferb

Favorite Sport: Riding her Bike

Favorite Animal: Horses,
Insects

Favorite Book: Pizza Pat

Hobbies: Painting with Water
Colors, Legos

Kendra Riley Seitz

This picture was taken on June 20th at 3:46 in the afternoon at a friend's birthday party. She was running through the sprinkler, chasing the other kids with a squirt gun, and playing in the sandbox with her one-year-old sister, Ashlie. By this same time on July 6th, Kendra was in the hospital and to everyone's surprise diagnosed as having Cardiomyopathy. Cardiomyopathy is a serious heart disease that causes the heart muscles to become inflamed and not work properly. On July 9th, she was placed on the heart transplant list. Through God's grace and thoughtful prayers, a heart was found. The transplant was a success, and we all hope to see her enjoying life like all other four-year-olds. We are now praying that the family can receive help in defraying this cost and the future costs of maintaining her care. Kendra will have to remain on lifetime immunosuppressant medication to avoid the possibility of rejection and potentially undergo another heart transplant. Facing bills this large can be a distraction away from focusing on the continued care for Kendra. Any donations would truly be a blessing and greatly appreciated.
