

Update To Wolcott Dr Residents 3-12-24

Mayor Antal

03-12-2024 11:21 AM

Dear Residents of Wolcott Drive:

I hope this message finds you well. I am writing to provide you with an important update regarding the ongoing road construction on Wolcott Drive.

Yesterday morning, without prior warning to the Village and/or the surety company, International Excavating removed all the safety cones and construction fencing from the area. Please rest assured that we have promptly notified the surety company about this serious matter.

In response to this unexpected development, the Village Roads/Service Department and Village Engineer conducted a thorough assessment of the situation earlier today to determine the best course of action to ensure the safety of Wolcott Drive. As a result, I am pleased to inform you that additional 304 limestone will be added in areas of concern, and asphalt grindings will be used to level up the roadway. These essential measures will be implemented today, Tuesday, March 12, by the Village Roads/Service Department.

Furthermore, I want to reassure you that the manhole castings will be picked up tomorrow by the Roads/Service Department and promptly installed and backfilled.

I sincerely appreciate your patience and understanding throughout this process. Your safety and well-being are our utmost priorities, and we are committed to taking all necessary steps to address any issues that may arise during the construction process.

If you have any further questions or concerns, please do not hesitate to contact me. Your feedback is invaluable to us as we work to ensure the successful completion of this project.

Once again, thank you for your cooperation and patience during this time.

Best regards,

Ron

Ron Antal, CPA
