Dear Wolcott Drive Residents:

I hope this letter finds you well.

I am writing to provide you with an update on the progress of the Wolcott Drive sewer project. We are pleased to inform you that efforts to restart the project are underway, albeit with some delays due to necessary evaluations.

Earlier this week, the surety company and their engineer engaged OHM Advisors to conduct surveying of the current rim and invert elevations of the sanitary sewer pipe previously installed, along with additional topographic points around the project site. Additionally, videotaping was performed on the storm sewer that was previously installed, and this footage has been shared with the surety company and their engineer for review.

It is important to note that our confidence in the work completed by International Excavation has been shaken, prompting us to meticulously evaluate all aspects of their previous work. While this thorough evaluation has resulted in some delays, please rest assured that this additional work is being funded by the surety company and will not be a burden on the Village or our residents.

All the gathered information, testing results, and video footage will be utilized to develop a revised set of plans. These plans will then be sent to contractors to provide pricing for the completion of the project in a timely manner. Our goal is to ensure that once construction resumes, there will be minimal, if any, unforeseen obstacles to impede progress.

We understand the importance of this project to the residents of Wolcott Drive and we are committed to seeing it through to successful completion. Your patience and understanding during this process are greatly appreciated.

Should you have any questions or concerns, please do not hesitate to call me at (330) 715-6780. We will continue to keep you updated as the project progresses.

Best regards,

Ron

Ron Antal, CPA

Mayor

Village of Boston Heights
